CENTRICA ENERGY

Energy Movers by Nature

Centrica Energy is a leading energy trading company operating out of eight offices across all time zones to move energy from source to use.

We trade power, gas, liquified natural gas, and energy attributes, and we connect independent producers, suppliers and corporate offtakers in the wholesale energy markets.

Our mission is to drive the green transition while offering sustainable and predictable energy costs for suppliers and offtakers. In short, we call ourselves energy movers by nature.

The Big Picture

OUR MARKETS

We Move and Trade Energy

Operating 24/7/365 our passionate and highly skilled energy movers help our client buy and sell energy, powering businesses, homes, and societies as they transition to a greener and fairer future.

We currently trade power across 26 European countries and gas across 19 countries. Over the next few years, we expect to expand our presence across the European continent, as well as globally. To service our customers across Europe and optimise our trading activities, our main offices are in London, Aalborg, Copenhagen, and Antwerp, alongside subsidiaries in Germany and Singapore, and branches in Norway and Sweden.
